

WEBPLAY  
TRAVERSEE INTERACTIVE

Titre du projet

Exode interactive.

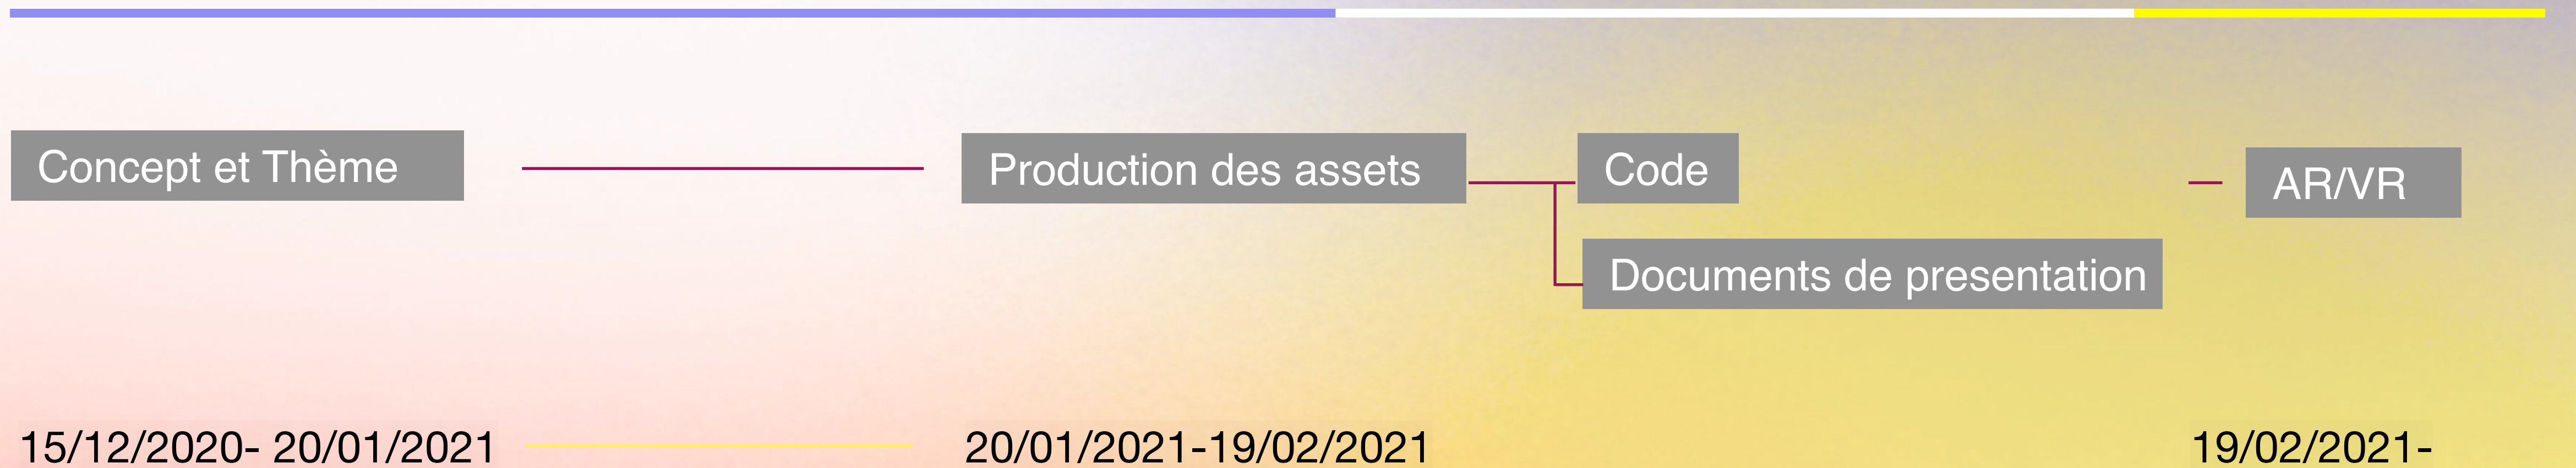

Theme et concept

Conception d'espaces, de surfaces planes colorées où l'utilisateur peut se promener librement et interagir avec du mobilier.

Il s'agit de plonger l'utilisateur dans des univers aux différentes ambiances sonores. Les objets, pour certains bio-inspirés, sont classés par ordre alphabétique et regroupés par étage, selon un code couleur que nous avons défini.
